DEPARTMENT: COMPUTER SCIENCE
COLLEGE: GOVERMENT ARTS COLLEGE
/BHARATHIAR UNIVERSITY**

PROJECT TITLE

DIGITAL PORTFOLIO

AGENDA

1. Problem Statement
2. Project Overview
3. End Users
4. Tools and Technologies
5. Portfolio design and Layout
6. Features and Functionality
7. Results and Screenshots
8. Conclusion
9. Github Link

PROBLEM

Traditional resumes are limited and often don't show a person's full skills or work. They are plain and can't display creative or detailed projects well. Digital portfolios are better for showing real work, but many people and companies still use old-style resumes, which can lead to missed chances.

PROJECT OVERVIEW

- In this project we are going to make a simple digital portfolio website like how I created it and its simple functionality
- This portfolio is a working model .So we see how I integrate the process.

WHO ARE THE END USERS?

The end users are the ones who will be able to access the digital portfolio link and make use of it .

The end users are me,my clients,teachers and everyone else who will use the site

TOOLS AND TECHNIQUES

The tools the are used to make this digital portfolioare
html and css

Html and CSS are the best tools that are used to make
simple portfolio

POTFOLIO DESIGN AND LAYOUT

The Digital Portfolio has a simple design and layout
in the design I have used animation effects using
javascript

The layout very simple that has a navigation bar
,about section ,project section and a contact me
section

FEATURES AND FUNCTIONALITY

- The functionality is very simple in which the portfolio will introduce me and will display my project
- and will have a contact section that will be functional and will receive mail that are sent by the end users and my clients those who want to make contact with me and about project.
- And these are its features also.

RESULTS AND SCREENSHOTS

The screenshot shows the homepage of a developer's portfolio. At the top, there is a navigation bar with links for About, Skills, Eager to Learn, and Contact. Below the navigation, there is a large, semi-transparent pink circular overlay. Inside this circle, the word "Girl" is written in a bold, black, sans-serif font. To the right of the circle, the text "Hi, I'm Sakthi Sree M" is displayed in a large, bold, black font. Below this, a smaller text reads: "A passionate developer learning to build beautiful and accessible digital experiences." At the bottom of the page, there is a red button labeled "View My Work". In the bottom right corner of the page content area, there is a small, dark rectangular button labeled "Show hidden icons".

The screenshot shows the "About Me" section of the portfolio. At the top, there is a navigation bar with links for About, Skills, Eager to Learn, and Contact. Below the navigation, the heading "About Me" is centered in a bold, black font. The content area contains two paragraphs: "I'm currently focused on **learning coding languages** and improving my **problem-solving** abilities. My goal is to become a proficient developer who can create clean and user-friendly web applications." and "I am excited to continue my journey in technology and build projects that showcase my skills and passion for development." At the bottom of the page, there is a red button labeled "My Skills". In the bottom right corner of the page content area, there is a small, dark rectangular button labeled "Show hidden icons".

THANK YOU
